# 1 / ROLE AND MISSION

## ENTREPRENEURSHIP AND DEVELOPMENT OF THE TERRITORY

Founded in 1999, I3P is acknowledged as **one of the best and longest-lived university incubators** in Italy and in the world, for its supported companies' portfolio's width and quality.

The mission of I3P is to **support the entrepreneurial ecosystem** in order to enhance both economic growth and employment in highly innovative industry fields and areas.

I3P operates according to a **strategy of collaboration** with private entities and institutions engaged in research and higher education, technology transfer services, innovation financing, and internationalisation.

I3P's distinctive characteristic in generating value for the incubated start-ups is the **interaction with Politecnico di Torino** and the research and innovation institutions related to it.

# 1 / ROLE AND MISSION

## FOCUS ON HIGH-TECH ENTREPRENEURIAL PROJECTS

I3P is a non-profit, joint-stock consortium company with **6 equal associates**.

I3P is characterized by its focus on **industrial entrepreneurial projects**.

- It supports both **academic spin-offs** and entrepreneurial projects by **external teams**.
- It is attractive also for projects and start-ups about **specific technological areas**, from Italy and abroad.
- It helps to introduce **new projects and skills in the SME environment** through **Open Innovation** initiatives.

# ROLE AND MISSION

## I3P AND THE POLYTECHNIC UNIVERSITY OF TURIN

Politecnico di Torino represents **the most important source of technical and scientific skills** to enhance I3P's activities and **the distinctive characteristic in generating value**, compared to other subjects which support and accelerate start-ups.

- Academic entrepreneurship's channel
- Support on the development of technical skills of incubated start-ups
- Access to highly-qualified human resources (students, engineers, designers, PhDs)
- Joint programs of entrepreneurial education
- Network with important industrial groups

# ROLE AND MISSION

## I3P AND THE NETWORK FOR INNOVATION

The ability of **generating locally and attracting high innovative potential projects** is also linked to the collaboration with institutions which operate in promoting research and innovation:

- Foundations and research centers working on themes regarding innovation and entrepreneurship
- Innovation centers focused on specific fields and technological domains
- Centers for specific skills' development
- Corporate
- Financial partners, VC funds, business angels

# ROLE AND MISSION

## THE INCUBATOR AS A TWO-SIDED PLATFORM

The creation of value for the supported start-ups comes from the ability of the incubator to operate in a two-sided market:

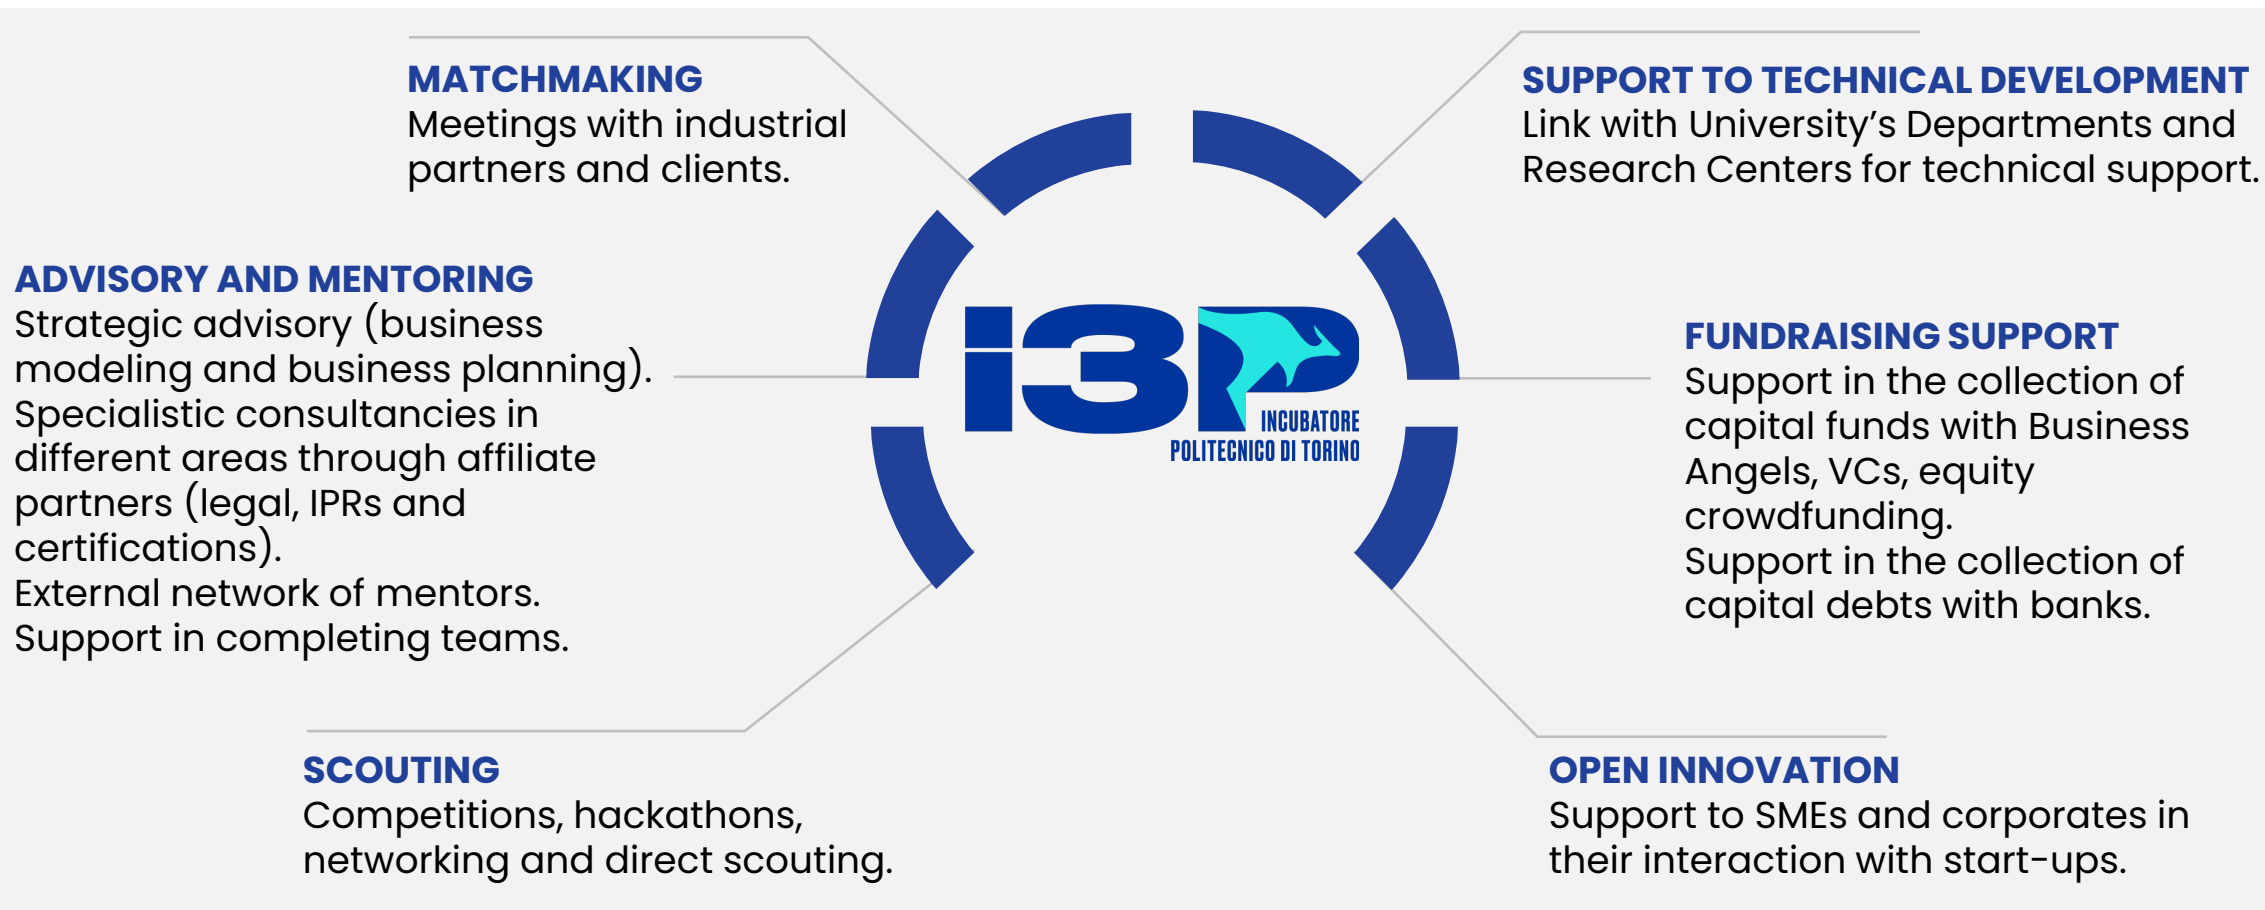

- Start-ups, academic and industrial spin-offs, entrepreneurial projects
- Corporates, medium-size innovative companies, VC funds, financial intermediaries, business angels, thematic accelerators

I3P's job is to **guarantee the quality of the subjects** operating on the platform and the presence of a **sufficient critical mass** to generate positive externalities, both between the two sides and within each one.

Being a consortium and a non-profit, I3P is coherent with institutional aim of its associates of **subsidizing implicitly both sides of the platform** and support local attractiveness.
